DEPARTMENT OF ZOOLOGY

4/5/47

Dear Josh,

Sorry I couldn't see you this past weekend. Two lectures & the arrival of Wiken really kept my hands full.

Your mutant sounds extremely interesting - a little amazing. I'll be glad to hear more about it.

I think we have the
histidineless population
story cracked. The
histidineless mutant
on low histidine uses
up the medium in a
very inefficient
fashion probably
 $P_{0.4} =$

If Spring really
comes we shall be to
Yale shortly.
Regards
Francis.
